ABSTRACTED-PUB-NO: JP 59227279A

BASIC-ABSTRACT:

The health drink contains root crops, citrus fruit, honey and spices and 20-40% comfrey juice. USE/ADVANTAGE - Comfrey is a medicinal herb contg. protein, oil & fat, chlorophyll, xanthophyll, etc. Comfrey shows medicinal effects on diabetes, gastric and intestinal disorder, pernicious anemia, liver disorder, pernicious tumour, etc. Hitherto the raw leaves, stem and root of comfrey have been served as it is or have been heat-cooked, so that effective components have not absorbed sufficiently, also heat-cooking often decomposes effective components. By using comfrey in the form of raw juice the absorption of effective components can be improved and by using together with root crops, citrus fruits, honey and spice, its grassy smell can be masked.
